

2G15X-MNX-X ANTENNA FAMILY

Compact GPS L1 Antenna with Magnetic Mount

The 2G15X-MNX-X product family uses the Global Positioning System (GPS) signal reception in the L1 frequency band. This antenna is a small, round enclosure with magnetic mounting for easy integration onto new and existing platforms. The rugged enclosure can withstand harsh environmental conditions seen in military, aerospace and other applications.

Antcom can customize this product to meet your specific requirements. Please contact us for more information about customization options.
