

NovAtel Inc. Announces Firmware Release Version OM7MR0400RN0000 (7.04.00)

April 4, 2018

NovAtel Inc. is pleased to announce the release of the 7.04.00 firmware for our OEM7 series of receivers with the following key features:

- Oceanix Correction Service Land Vehicle Support – Oceanix correction service delivers exceptional sub-decimetre positioning for diverse marine applications including dredging, hydrographic survey and mapping. Oceanix enables RTK assistance to seamlessly handle RTK correction outages.

NovAtel Inc. is also pleased to announce the release of the PP7.02.00 (EP7PR0200RN0000) software for our PwrPak7 series of receivers which uses our 7.04.00 receiver firmware.

A full listing of all the changes are documented in the What's New document that is included when downloading the firmware.

Refer to our documentation portal for the OEM7 reference manual:
