

SMART-MR15™ GPRS/HSDPA Activation

To activate your SMART-MR15 on a GPRS/HSDPA network, please follow these steps:

1. Contact your preferred GPRS/HSDPA cellular service provider.
2. Obtain an active account and SIM card providing GPRS/HSDPA data services (recommended data plans for Network RTK are 5GB/Month Rate Plans). You may need to provide:
 - a. Product Name: SMART-MR15-HSPA containing Telit UC864-G cellular module
 - b. Modem Serial Number (IMEI): Modem serial number from SMART-MR15 product label
3. Install the SIM card into the SMART-MR15. Ensure the SIM door is properly aligned, then secure it in place. See user manual for guidance. Your product is ready for use.

Label Location

☒ Secure SIM cover to base using flat-head screwdriver. Screws should be torqued to 4-6 in-lb.

4. The following commands may be required to configure the cellular data connection:

```
cellset apn <apn_name>           (always required)
cellset user <user_name>         (if provided by carrier)
cellset password <password>     (if provided by carrier)
```

5. Your product is ready for use.

WARNING: Cellular data consumption and service charges are dependent on the configuration of your SMART-MR15 receiver and data logging rates.

Dealer/Integrator Label Goes Here
